worldzPayments

Brand *Guidelines*

Non-custodial payments for merchants. Keys stay yours.

VERSION 1.0 NOVEMBER 2026

Brand essence

Who worldzPayments is, and how it sounds.

POSITIONING

Money that never leaves your *hands.*

worldzPayments gives merchants checkout, payment links and invoices that settle straight to their own wallet. No pooled balance. No custody. No waiting on a middleman.

VOICE

Clear · Direct · Confident

1

Non-custodial

Funds go to the merchant wallet. worldzPayments never holds keys or balances.

2

Merchant-first

Built for sellers, freelancers and stores that live on social and mobile.

3

Instant settlement

Each order gets a unique address, so payments are matched the moment they land.

4

Open and verifiable

Every payment can be checked on-chain by anyone. Nothing hidden.

Logo

Three points, one route. Buyer, merchant, chain.

worldzPayments

PRIMARY LOCKUP ON INK

THE MARK

A and B are two points: the buyer and the merchant wallet. C is the settlement on-chain. Both routes meet at one green node.

Corner radius 26% of the mark width. Stroke 7.5%. Nodes 8.5% and 11.5%.

ICON ONLY ORB

One primary per view. Labels are verbs. Sentence case, except mono buttons.

Radius follows the shape. Green fills are for money actions only.

RULES

Button states

Every button shares the same six states.

PRIMARY

DEFAULT	HOVER	PRESSED	FOCUS	DISABLED	LOADING
Create link →	Create link →	Create link →	Create link →	Create link →	Settling
View demo	View demo	View demo	View demo	View demo	Loading

SIZES

Large button →	56 px height
Medium button →	46 px height
Small button →	36 px height

MOTION AND RULES

- Hover: 120 ms ease-out, green hairline appears.
- Press: moves 2 px down, 80 ms.
- Focus: 2 px green ring, 4 px offset. Never remove it.
- Loading: label becomes a verb in progress, width is kept.
- Disabled: 40% contrast, no hover, no shadow.

Components

Cards, chips, inputs and feedback.

STATUS CHIPS

- Settled — 0.6 s
- Pending — awaiting 1 confirmation
- Failed — underpaid
- Expired — link older than 24 h

ELEVATION AND MOTION

Level 1

Level 2

Level 3

Ease-out 120 / 200 / 320 ms

Only the green node pulses. Nothing bounces.

DO

- Say "your wallet" and "settles", not "deposits".
- Show the unique order address and let people verify on-chain.
- Use one italic serif word per headline, in green.
- Keep the paper background. Dark surfaces are for moments of success.

DO NOT

- Imply worldzPayments holds, pools or can freeze merchant funds.
- Use gradients on buttons other than the vault Pay button.
- Mix more than one italic accent per screen.
- Use green for decoration. It only means money or success.

worldzPayments

Get paid.
Keep your *keys.*
